1. Store:

A. Create Store:

- Effortlessly establish new stores with essential details:
 - Store name
 - Store category
 - Address
 - Click on the 'Create' button to complete the process.

The screenshot shows a web form titled "Create Store". It features three input fields: "Name *" (a text box), "Category *" (a dropdown menu with "Select Options" as the placeholder), and "Address *" (a larger text area). A blue "Create" button is located at the bottom right of the form.

2. Category

A. Categories listing

- Category Image:
Users can easily identify different food categories through associated images.
- Category Name:
View category names such as lunch meal, snacks, or dinner meal for quick identification.
- Parent Category:
Understand the broader context by checking which parent category encompasses specific meals like lunch, snacks, or dinner.

No Data Found				

B. Create Category:

- **Category Name:**

Users need to input the category name (e.g., lunch meal, snacks, dinner meal).

- **Parent Category:**

Specify the broader category to which the new one belongs (e.g., all lunch meals, snacks, or dinner meals under the food parent category).

- **Inventory Evaluation:**

Choose between manual or automatic evaluation methods from a dropdown menu.

- **Image:**

Upload an image to visually represent the category.

- **Visible to POS:**

Toggle on or off to control whether the category is visible in the Point of Sale system.

- **Visible Online:**

Toggle on or off to decide if the category is visible in the platform.

6. Employee Wallet

A. View Employee Information:

- Navigate effortlessly to view a list of employee name along with their wallet balances.

B. Transaction History:

- Explore transaction history for a detailed overview.
- Search Functionality: Easily locate specific transactions using the search option.
- Tabs for Status: Organize transactions with four tabs (All, Successful, Pending, and Failed).
- Listing Details: Recharge ID, Transaction No, Reference No, Amount, Date & Time, Mode, Paid By, and Status.

The screenshot displays the 'Employee Wallet' interface. At the top, it shows the 'Employee Name' and a balance of ₹ 5000, with a 'Recharge Wallet' button. Below this is the 'Transaction History' section, which includes a date filter (mm/dd/yyyy), a 'Notification Type' dropdown, and a 'Notification Like' dropdown. The transaction history is presented in a table with four tabs: 'All', 'Successfull', 'Pending', and 'Failed'. The table has the following columns: Sr.No., Recharge ID, Traqnscation No., Reference No., Amount, Date & Time, Mode, Paid By, and Status. Three rows of transaction data are visible, all with a status of '1234'.

Sr.No.	Recharge ID	Traqnscation No.	Reference No.	Amount	Date & Time	Mode	Paid By	Status
1	1234	1234	1234	1234	1234	1234	1234	1234
1	1234	1234	1234	1234	1234	1234	1234	1234
1	1234	1234	1234	1234	1234	1234	1234	1234

C. Recharge Wallet: Top up your wallet seamlessly.

- Enter Amount: Specify the amount to recharge.
- Transaction Details: Preview total amount, transaction charges, and the final amount to pay.
- Payment Gateway: Conveniently add money to your wallet.
